

PROFFco pump group

Pump group

Code	mH ₂ O	EAN13
6096820	6	5902273502685

Product usage:

For use in central heating systems for controlling and maintaining constant temperature in heating manifolds

Type:

Pump group

Technical data/Operating parameters:

Max temperature: 95°C
 Max pressure: 0,6 Mpa
 The scale thermometers: 0-160°C
 Factors heating: water, aqueous solutions of glycol (max. 50% glycol)
 Flow factor Kv = 7,3 m³/h

Guarantee:

2-year

Used materials:

valve bodies, fittings, piece: brass;
 pump body: cast iron;
 pipe G6/4: galvanized steel;
 thermometer: steel/aluminum;
 mounting bracket: galvanized steel;
 seals: EPDM;
 seals ball: PTFE;
 insulation: PPE

Finish:

valve bodies, fittings, piece: brass; pump body: cast iron; pipe G6/4: galvanized steel; thermometer: steel/aluminum; mounting bracket: galvanized steel;
