### Easy fix

EASY FIX is an innovative system for easy installation that is used in single-handle mixers by VALVEX. It significantly reduces the installation time.

### Adjustable direction of water flow

The mixer aerator with an adjustable angle of water flow allows adjusting the jet angle in the range of 7 degrees in either direction.

### Aerating stream regulator

The jet regulator that aerates the mixer aerator is equipped with a mixing mechanism that mixes the flowing water with air. This simple solution gives noticeable savings in water consumption, which can reach up to 50%.

### Easy clean

The mixer aerator is equipped with EASY-CLEAN technology with an anti-scale system and a rubber finish which makes it resistant to scaling and easy to clean and maintain.

### Save money

The mixer aerator with the SAVE MONEY system reduces the flow of water up to 4.5 l/min., regardless of water pressure, thereby reducing the maximum consumption.
