BATHROOM

That, what surrounds us, has a significant impact on our everyday life and well-being. Therefore, make sure that your interior is unique, atmospheric and functional, and at the same time it reflects your true nature. Feel the inspiration and create a timeless oasis of comfort. Do you desire harmony at your home?

Enjoy it ...

Discover the hypnotic MIKADO aerator stream

Turn ordinary handwashing into a delightful experience with the MIKADO Perlator.

Using single water streams, it creates a unique geometric pattern, thanks to which it saves water (flow only 1.9 l / min), without sacrificing your comfort. MIKADO is an innovative aerator that will surely enchant you, and your hands will provide unprecedented sensations: from gently pleasant to energetically massaging.

MAGIC CLICK

Just press one practical Magic Click to set your preferred stream type, just! Thanks to this simple solution, you don't have to struggle to twist the spray handle disc.

EASY CLEAN

The faucet aerator is equipped with EASY-CLEAN technology with an antiscale system and a rubber finish which makes it resistant to scaling and easy to clean and maintain.

COLD TOUCH

The COLD TOUCH system isolates the hot water flow from the thermostat housing. Thanks to this, the solid brass body of the shower faucet always stays cool and safe.

SHOWER

Have you ever dream of an interior in which you will find relief? Look how to arrange the bathroom so that it becomes your place of rest. A place where you

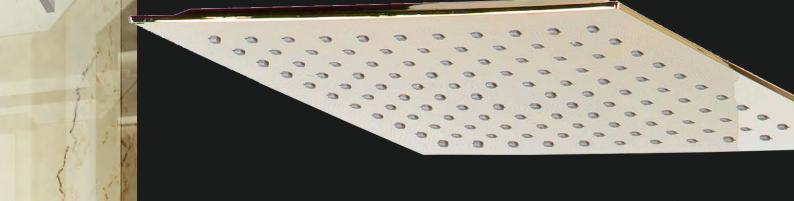

will experience a stimulating "good morning" and a relaxing "good night" ...

Discover extraordinary moments in unique interiors.

V-BOX

V-BOX is a functional concealed element, to which you can freely adjust the external elements of the battery.

QUIET OPERATION

Water piping elements are located inside the housing, so that the sound of flowing water is suppressed.

PROTECTION AGAINST MOISTUR

Brass items have limited contact with the wall, thanks to housing which protects walls from moisture.

CONNECTION

- Shower Valve 3 x G 1/2
- Bath/Shower Valve 2 x G 1/2, 1 x G 3/4

ASSEMBLY

Universal mounting allows for stable mounting of V-BOX inside the wall.

WALL ADJUSTMENT

By properly cutting the housing flange, we can adjust the depth of the V-BOX assembly in the wall.

Leveling of the concealed part.

Installation of piping to the concealed part.

Plaster and ceramic tiles assembly.

Installation of external components.
