

V-THERM Controller for mixing valves

Controller for mixing valves

Kod	Range T (°C)	Supply voltage	Power consumption	EAN13
6098280	8-90	230V/50Hz +/-10%	max. 4W	5902273503156

Product usage:

For use in central heating systems

Type:

Control panels

Technical data/Operating parameters:

- smooth control of three-way/four-way valve
- pump operation control
- possibility of controlling two other valves via additional modules: ST-61 v4 or ST-431n
- weather-based control and weekly control
- cooperation with indoor adjusting unit

Guarantee:

2-year

Used materials:

Finish:

-
